Syméon Smith

I'm a French computer science student looking for a 12-week internship as a Fullstack Engineer during the Summer 2022.

I am detail-oriented, committed, adaptable and eager to learn.

SKILLS

Front-end
React · TailwindCSS · Svelte

Back-end
NodeJS (Express) · Flask

Databases
SQL (Oracle, MySQL) · MongoDB

Other languages
Python · C · Java

Tools
Git · Unix · Figma · Office

LANGUAGES

French
Native

English
Professional fluency (C1 CEFRL)

Italian
Advanced level (B2 CEFRL)

HOBBIES

Sports
Gymnastics · Ski

Music
Trumpet (solo, orchestras)

EDUCATION

Grenoble Institute of Technology and Management

Master's degree — September 2020 - Grad. June 2023

- Leading engineering school specialized in computer science and applied mathematics.
- Specializing in Software and Systems Engineering.
- Courses :
  - Programming (C, Python, Java)
  - Algorithms (Dynamic Programming, Recursion, Optimization)
  - Databases (SQL, Database Conception)
  - Computer networks (Internet Protocols, OSI Model)

Lycée Faidherbe

Undergraduate studies — September 2018 - June 2020

- Intensive undergraduate studies in Mathematics and Physics.

EXPERIENCE

Dashdoc (dashdoc.eu)

- Dashdoc builds digital tools for the road freight transport industry.

Remote, Freelance — End of 2021

- Migration of the marketing website from Gastby v3 to v4.
- Migration of SQL queries and dashboards from Redash to Metabase.

Paris, France — July 2018

- Creation of interface components (React).
- Creation of unit tests (Django).
- Help in adding a localization system for the interface.

PROJECTS

Weather Forecast Application

- Built using React and the OpenWeatherMap API (more detail on GitHub).
